## COLLECTION OF A. BUCHMAN New York City

### ARTISTIC MEDALS FROM THE BEGINNING OF THE XVI CENTURY UP TO THE PRESENT TIME.

#### PREFACE.

In presenting this collection for sale, we feel like saying a few words about the character and quality of the items described below. The collector himself a well known figure of the American Diplomatic service had during his stay in Europe so many opportunities to purchase fine material that we are not so much amazed about the quality as about the variety and the distinct taste. We find in this collection artistic medals of all the important styles and schools. In the first place we would like to call your attention to the German Artist Hans Reinhardt, one of the best known German Renaissance medallists, who is represented by 3 medals, amongst them the so-called "Dreifaltigkeitstaler" executed in commission for Duke Maurice of Saxony and without exaggeration the most attractive medal for every Renaissance collector. As later representatives of German art we find: Dadler, Gebel, Höhn, König, Kowarzik Marschall, Scharff, etc. Then we have to mention the Dutch series which include such famous artists as Pieter von Abeele, Simon Passe, T. Loof, Boskam, Aury, Pool, etc. The French and Italian series are not so numerous but also here we find outstanding artists as Moderno, Warin, Gatteaux, Dubois, Dupre, Roty, etc. Unfortunately we have not been able to provide the catalog with plates. In spite of this fact we imagine that many collectors will take the opportunity in looking over this collection which shows up only once in a decade and will be an abundant source for new acquisitions.
